

Cast Iron, Twin Cylinder Pump Air Compressor

The VT6395 compressor offers a solid cast iron, twin cylinder compressor pump for extreme durability. It also offers 135 psi maximum pressure and air delivery 10.2@90 psi. It has a space saving vertical design that is perfect for your home, garage, or work shop.

- **Cast Iron Pump**

This cast iron pump is over 35% quieter and 60% cooler than aluminum pumps with cast iron cylinder sleeves. With up to 5,000* hours of extended life this solid pump will run a long time.

- **Industrial Metal Wire Belt Guard**

Rugged material with an open design allows belts to run cooler and last longer while increasing durability

- **80 Gallon ASME Code Tank**

The ASME code tank is certified for 200 psi maximum pressure assuring safe operation

- **Premium Notched Belt:**

Less slippage from the belt increases performance of the pump and motor. Premium notched belts are higher quality that last up to 5x longer without re-tensioning

- **Commercial Width Base**

The new handle design makes it easier to move the unit from one place to another. Improves belt contact and life of the belt. The unit stays cooler and runs longer with the pump and motor separated

Specifications

Model	VT6395
Size	60 Gallon
HP	3.7
MAX PSI	135
Free Air CFM	10.2 @ 90 PSI
Pump	Oil-Lube
Unit Weight	246 lbs
Voltage	230 Volt
Phase	1PH
Amperage	15A
UPC	045564101954
